WHY MUSIC MATTERS

On behalf of Music with Amy, I'm delighted that you're interested in working with us.

Music with Amy was founded in 2022, building on my professional experience as an actor-musician and my passion for using music as a tool for creativity, confidence and connection. My years as a performer showed me just how powerful shared musical experiences can be, and inspired me to create high-quality musical opportunities that help people of all ages develop not only their musical skills, but also their confidence and personal growth.

I believe every child deserves the opportunity to experience the joy of making music and to develop their own musical voice, whatever their age, ability or level of experience.

Our lessons are designed to be inclusive, engaging and accessible, helping every pupil to participate, progress and feel successful.

Quality you can trust

I trained with The Vocal Process Ltd. and became a Registered Singing Teacher, and I am now continuing my professional development by training in how to mentor other music teachers.

Having worked with St. Cecilia's Catholic Primary School and St. Michael's Primary School, I'm thrilled to be bringing Music Matters to more schools across Merseyside.

My aim is simple: to pair your school with a professional music instructor, supported by me in their professional development, to give you reliable, high-quality education, valuable PPA time and ensure that every child has the opportunity to make music matter.

Let's make music matter.

Why Us

SECTION 2

“Why should I choose Music Matters?”

Primary school teachers face high demand to teach every subject fluently but music is a language all of its own, which is why specialised teaching is required.

While there are many PPA Cover companies out there providing schools with a multitude of subjects, the quality of the teaching can be inconsistent.

Our teachers are selected for their musical expertise and teaching experience.

We believe that great teachers also need great support, which is why our teachers receive ongoing mentoring and professional development.

Music is about so much more than learning to sing or play an instrument.

It develops confidence, creativity, communication, listening, concentration and collaboration.

Skills that can support them both inside and outside the classroom and across subjects.
